

## *Press Release*

**Date:** August 17, 2009

**Subject:** Quality Manager

We are pleased to announce Tim Rogers has been named Quality Manager. Tim has a long career with Technidyne which includes experience in Production, Quality and Area Sales in North America. He will work to ensure consistent quality among procedures, products and services offered to Technidyne customers worldwide. Tim has a unique blend of organization, technical knowledge and ability to unify people toward a common purpose. He will use these skills to deal with quality throughout the process from design through customer service.
